## **Overview**

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation administers programs that protect prime farmland for future generations.

Pennsylvania is a national leader in farmland preservation with 6,044 farms and 611,620 acres protected through permanent agricultural conservation easements (April 2022). Public funds used toward easement purchase are a critical investment in the future of Pennsylvania's thriving \$132.5 billion agricultural industry. In addition to the economic benefit, the program ensures food supply for a growing population. Pennsylvania has some of the most fertile, non-irrigated soils found anywhere in the world. The pandemic and increased threat of climate change both put food security at a heightened level of awareness and further support the need to continue preserving farms. The latest USDA ag census figures indicate that the commonwealth lost roughly 6,000 of its farms from 2012-2017.

[cp99042.pdf \(usda.gov\)](#) Development pressures will threaten prime farmland soils in the decade ahead. Farmland preservation mitigates these irreversible losses.

Thirty-three years after the first farm was preserved, the work to secure new easements continues, while the focus shifts toward the next generation. The Pennsylvania Farm Bill provides farmers with an extraordinary opportunity to develop transition, succession and business plans through the Agriculture Business Development Center (ABDC). Preserved farms were targeted in 2021 with outreach on these services. The Farm Vitality Planning Grant, created as a function of the ABDC, has awarded \$1.75 million to 235 farm owners in fifty-six counties to date. Ninety-one of the recipients were preserved farm owners. The bureau, in partnership with Bureau of Market Development, administered the program in 2021.

In 2021, farmland preservation highlights include:

- \$54.8 million in state, county and federal funds made available to purchase development rights on working farms;
- 166 farms totaling 14,397 acres preserved;
- Reaching a 600,000-acre milestone and celebrating on the Martin Farm in Berks County;
- Implementing the \$10 million federal Regional Conservation Partnership Program (RCPP) award from USDA's Natural Resources Conservation Service (NRCS) to increase farmland preservation efforts along the Kittatinny Ridge, and expanding federal Agricultural Conservation Easement Purchase Program (ACEP) participation to include additional counties;
- Administering Farm Vitality Planning Grant Program, with 67 grants distributed in 2021, including 23 preserved farms;
- Issuing 15 realty transfer tax exemptions to beginning farmers purchasing preserved farms;
- Awarding 18 century and bicentennial farm families.

## **Bureau Activities**

The bureau provides administrative and technical support to 58 counties that participate in farmland preservation programs and oversees the distribution of funds set aside for preservation purposes. Easement recommendations are reviewed for state board approval and guidance is given to counties, farm owners, local officials and attorneys on issues related to preserved farms. The stewardship responsibilities associated with a now \$1.8 billion public investment are mounting. This trend will continue over time.

In addition to administering the state farmland preservation program, the bureau is tasked with overseeing the Clean and Green preferential tax assessment program, the Ag Security Area program and Century and Bicentennial Farm program.

Farmland preservation and associated programs require extensive outreach to stakeholders and local officials. The network of local officials and boards is extensive. Public information and training efforts in 2021 are detailed on page four of this report.

Section 14.4 of Act 149 (3 P.S. § 914.4) requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

The report covers the activities of the bureau and board from January 1 through December 31, 2021.

### **Program Implementation**

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county and local governments to purchase conservation easements – often called development rights – from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed local agricultural land preservation boards. A state board is responsible for distribution of state funds, and approval and monitoring of county programs, boards, and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities. ASA designation also provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials per soil quality, stewardship, and development pressure. Each farm is ranked and placed on a waiting list per its ranking. Roughly 1,200 eligible farms remain on county backlog lists.

In 2021, the State Agricultural Land Preservation Board met five times to consider individual easement purchases submitted by 42 of the 58 counties participating in the farmland preservation program. The state board approved for purchase 166 easements of various ownership combinations from state, county and local governments, as well as non-profits. Easements totaled 14,397 acres.

A press event was held on the Martin Farm in Berks County following the August state board meeting. The event highlighted the milestone of 600,000-acres preserved and reinforced the linkage between food security and farmland preservation.

### **Funding**

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads, expand operations, or to help ensure the transition of the farm to

the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, in installments over a period of five years, or on a long-term installment basis.

The program operates on a calendar year with county governments. The state board is required to set a spending threshold by March 1 of each year. In 2021, the board set this amount at \$38 million and county contributions totaled \$16.6 million. Each county received a grant amount and counties that contributed funds also received match. Along with federal funds, the total investment in farmland preservation for 2021 was \$54,805,975. Dedicated state funding sources include \$25.5 million annually from cigarette taxes and a variable amount of roughly 18.7% of the Environmental Stewardship Fund.

### **Public Information and Training**

Part of the bureau's commitment to protecting the state's farmland from development involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau staff support the 58 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

In 2021, the bureau conducted numerous individual training sessions for county administrators across the state. The bureau also participated in a virtual meeting conducted by the Pennsylvania Farmland Preservation Association; an organization comprised of county farmland preservation program administrators dedicated to promoting the interests of agricultural land preservation within the state. This outreach helps to ensure that county staff have a comprehensive understanding of the program and strengthens the relationships between bureau staff and county staff.

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources, and cutting administrative costs. The bureau is working with the department's Office of Information Technology to incorporate financial tracking, further reducing paperwork and improving efficiency. In addition, a project is underway to update the Geographic Information Systems (GIS) layer to accurately map preserved farmland.

In 2021, the bureau led a Clean and Green class for local officials at a conference in the Poconos. In addition, the bureau routinely engaged with Assessors Association of Pennsylvania's Clean and Green committee and the County Commissioners Association of Pennsylvania (CCAP) on program issues. The bureau presented on solar implications with farmland at the CCAP conference in Hershey.

In 2021, the bureau attended American Farmland Trust's (AFT) National Agricultural Land Network meetings. The bureau also engaged with AFT and other states on issues related conservation programs under the federal Farm Bill.

The bureau met virtually with the National Young Farmers coalition to discuss land access and farmland affordability for the next generation. In addition, discussions regarding farmland preservation as a tool for land access and urban agriculture continued in 2021.

In 2021, bureau staff routinely engaged with farmers, local boards, and stakeholders on topics related to farmland preservation. As the program matures and the number of preserved farms increases the

workload has shifted from that of securing purchases to one of protecting an investment. Competing land use interests and a growing population will continue to challenge easements going forward.

Utility scale solar development on farmland continued to be a hot issue in 2021. The bureau provided local officials with suggested guidance related to agriculture zoning that would deter development from occurring on prime farmland soils unless it is compatible with farming. Finding the balance between renewable energy and agricultural production is critical. The bureau presented testimony at both a House and Senate hearings related to solar development. The bureau also presented on a webinar spearheaded by the Penn State Ag Law Center. The bureau is a member of an interagency group on solar development and participated in those meetings throughout the year.

Along with renewable energy, the climate crisis is also at the forefront of state and national discussions. Agriculture's role is significant. Preserved farms are required to have a conservation plan that addresses all soil, water, and nutrient concerns on the farm. Many of the practices prescribed in conservation plans are also considered 'climate smart practices' with an important co-benefit of capturing carbon. Preserved farms are ideal for additional conservation investments, including climate smart practices.

#### **Federal Agricultural Conservation Easement Program**

The federal Agricultural Conservation Easement Program (ACEP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses landowners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

Since 1996, the Agricultural Conservation Easement Program (formerly known as the Farm and Ranchland Protection Program) has provided over \$37 million in funding to the state easement purchase program in Pennsylvania. This funding preserved more than 41,000 acres throughout the commonwealth. In 2021, USDA awarded \$761,565 in reimbursements for seven farms totaling 488 acres in Adams, Butler, Lackawanna and Lancaster Counties. The bureau recently signed a three-year program agreement with USDA-NRCS in order to continue accessing these funds.

#### **Federal Regional Conservation Partnership Program**

In 2021, the bureau's Regional Conservation Partnership (RCPP) award for \$10 million from USDA-NRCS to enhance conservation efforts in the Kittatinny Ridge region was implemented. Partners include: Department of Conservation and Natural Resources, Department of Military and Veterans Affairs, Pennsylvania Game Commission, The Nature Conservancy, and four local land trust organizations. The RCPP was selected to enhance conservation efforts in twenty-two counties along the Kittatinny Ridge region. The proposal garnered the largest local contribution of any application nationwide, at roughly \$40 million. The bureau led meetings with stakeholder groups throughout the year.

The bureau was awarded a \$6.3 million (RCPP) contract from USDA-NRCS in 2018 to install best management practices on preserved farms in the Chesapeake Bay watershed. The award used state and county farmland preservation investments as the required match for funds to be disbursed under the USDA's Environmental Quality Incentives Program (EQIP). The primary focus area includes Adams, Cumberland, Dauphin, Franklin, Perry and York Counties. As of 2021, forty-five EQIP contracts were signed with an obligation of nearly \$4 million to implement best management practices on farms in all six of the targeted counties. The balance of funds were reserved for easement purchases and costs

associated with developing conservation plans. All funds have been spent or obligated to date. The RCPP compliments the efforts of the State Conservation Commission in meeting statewide goals of cleaning up the Chesapeake Bay, as outlined in the federal Watershed Implementation Plan (WIP).

A 2022 proposal was submitted to USDA-NRCS which, if awarded, would provide financial assistance to preserved farm owners to install climate smart practices on preserved farms and technical resources for transitioning to organic production.

### **Agriculture Business Development Center**

The Agriculture Business Development Center was created through Act 40 of 2019 (3 Pa.C.S. §§ 4801-4810) to assist farm owners with business, succession and transition planning. The legislation is a key component of the Pennsylvania Farm Bill. The Bureau of Farmland Preservation assists the Bureau of Market Development in carrying out the mission of the center. The Farm Vitality Planning Grant Program provides direct grants of up to \$7,500 to farm owners for transition, succession, and business plans. The program awarded grants to 67 farm owners in 2021. Twenty-three of those applicants were preserved farm owners. The bureau targeted preserved farm owners with this opportunity by presenting to county staff and boards at meetings throughout the year. A grant round is currently under way in 2022.

In addition, fifteen farm owners have been certified by the bureau as ‘qualified beginning farmers’ for purposes of realty transfer tax exemptions for purchasing preserved farms.

### **Clean and Green Program**

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, or Act 319, (72 P.S. §§ 5490.1-5490.13), protects farmland, forestland and open space by allowing for land taxation per its value as used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its over 40-year history, the program has been widely successful in achieving this goal.

Enrolled land is assessed per the income approach to land appraisal – the amount of income the land can produce at its highest and best agricultural use. The trend in recent years has been for the use values to increase. Counties may establish use values that are lower than the Department’s. The program has widespread participation, with 10.8 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is roughly 50 percent – providing an incentive to keep the land undeveloped.

The program is voluntary and generally requires a minimum of 10 acres remaining in one of three designated use categories:

- Agricultural use – land used to produce agricultural commodities commercially;
- Agricultural reserve – noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge; and
- Forest reserve – 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use is subject to a roll back tax imposed for up to seven years, plus six percent simple interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the program at the county level. The bureau provides for uniform interpretation of the Clean and Green Act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to submit information annually on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the department surveys each county on its Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included in the appendices as Exhibit A.

## **2021 Clean and Green Survey Results**

### ***Administration***

The 2021 survey forms were distributed to 67 counties and all responded to the survey. Sixty counties, or 90 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2021.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 214,482 parcels enrolled in 2021, covering 10,815,180 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include a split-off/subdivision between two and 10 acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks. Far more applications are accepted each year than rejected. Violations, which result in rollback taxes, are often unavoidable.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund. The interest on rollback taxes is intended to mitigate loss of farmland as it is used to fund easements purchased through the state farmland preservation program. In some cases, it is the sole source of county funds that are certified to the state for match.

Table 13 (appendix) lists the way Act 319 use values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county-specific use value. Use values may only be updated during a countywide reassessment or if the department's values drop below the values that were established in 2016 (year of a program amendment).

Table 13A also lists how counties assess the forest reserve average values. The department, with assistance from the state Department of Conservation and Natural Resources' Bureau of Forestry,

provides values based on the average value of timber in a county and the average value of six timber types.

#### **Century and Bicentennial Farm Programs**

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the commitment of Pennsylvania's long-standing farm families to preserving a vital element of the economy.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Pennsylvania Secretary of Agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The Bicentennial Farm Program is ruled by similar standards to the Century Farm Program.

In 2021, a total of 18 Century and Bicentennial farms were awarded to families across the commonwealth.

#### **Land Trust Reimbursement Grant Program**

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant Program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by land trusts. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-four land trusts are registered with the state board. As of December, 2021, the board awarded \$2,597,511 to 14 land trusts for expenses incurred through the preservation of 40,174 acres. The acreage preserved through this program does not count toward the state total of preserved land and farms.

#### **Easement Program Participation**

The remainder of this annual report responds directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4 and contain explanatory text that references tables and graphs included in the appendices.

#### **Agricultural Security Areas**

Agricultural Security Areas strengthen and protect quality farmland from the urbanization of rural areas by protecting against local nuisance ordinances related to farming activities and providing oversight in certain cases of eminent domain. Enrollment in an ASA is voluntary, but a prerequisite for applying to

the farmland preservation program. The most important step in preserving a farm begins at the local level when the ASA is formed.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, (3 P.S. § 908), provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

#### ***Location***

A list of all ASAs known to the department is contained in Table 1 (appendix) ASAs are listed alphabetically by county and township.

As of 2021, a total of 1,003 ASAs have been formed in 65 counties in Pennsylvania.

#### ***Number of Acres***

In 2021, a total of 4,051,179 acres were enrolled in ASAs across Pennsylvania.

#### ***Conservation Easements***

##### ***Number of Acres***

In 2021, 14,397 acres were placed under agricultural conservation easements. A total of 611,620 acres have been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased to protect the land in perpetuity.

Agricultural conservation easements preserved in 2021 are listed in Table 2 (appendix). The second and third columns list the landowner's name and the county where the easement is located.

##### ***Number of Easements***

At the end of the reporting period, 5,979 easements were purchased under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 1,284 county-owned, 1,968 commonwealth-owned, 2,529 jointly-owned agricultural conservation easements, 135 multi-funded easements and 63 easements funded jointly between a county and non-profit or local municipality.

##### ***Number and Acres in Each Conservation Easement***

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 166 easements totaling 14,397 acres purchased in 2021, shown in Table 2 (appendix). There were 163 lump-sum payment purchases, accounting for 98 percent of the easements. Most easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were three regular installment sales, roughly two percent.

### ***Number and Value of Easements Purchased***

The purchase price of each easement under the program this reporting period is given under column five of Table 2 (appendix). The next two columns of Table 2 present additional costs in acquiring the easements and the “Total Costs” column represents the sum of the three columns.

#### ***1. Commonwealth-Owned Conservation Easements***

Fifty-eight commonwealth-owned easements were purchased in 2021, covering 5,453 acres with an easement value of \$17,638,718.

#### ***2. Joint Commonwealth/County-Owned Conservation Easements***

There were 102 state and county jointly-owned easements covering 8,629 acres purchased in 2021. These easements totaled \$26,501,505.

#### ***3. Multi-Commonwealth/County/Township-Owned Conservation Easements***

In 2021, six multi-owned easements totaling 315 acres and \$2,798,667 were purchased by the commonwealth, counties and townships.

The typical transaction is a bargain sale, meaning the farm owner accepts less than the appraised easement value. In total, preserved farm owner donations have totaled in the millions of dollars and have been the single greatest source of leveraging funds for the program.

### ***Participating Counties***

All 58 counties with appointed boards and active programs were eligible to participate in the 2021 allocation of funds process and are listed in Table 3 (appendix).

### ***County Annual Appropriation***

The 2021 appropriations made by counties are listed under the second column of Table 3 (appendix), totaling \$16,570,045. Table 6 (appendix) shows total county appropriation amounts from 1989-2021.

### ***Characteristics of 2021 Preserved Farmland***

#### ***Quality of Farmlands Subject to Easement***

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2021.

In summary, 14,397 acres of land were placed under easement during this reporting period on 166 farms.

Natural Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 352 acres
- Class II – 7,090 acres
- Class III – 4,314 acres
- Class IV – 1,514 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 1,127 acres

Soil classes I-IV are well-suited for agricultural production.

Type of operations that were preserved in 2021:

- Crop – 98 operations (including vineyards, vegetables and Christmas trees)
- Livestock – 12 operations (including poultry, dairy, beef, goats, sheep and equine)
- Crop and Livestock – 56 operations

#### ***Nature and Scope of Development Activity***

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 75 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

#### ***Conservation Practices on Farms Subject to Easement***

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2021. All farmers have developed conservation plans for their farms and are in various stages of implementation. Biennial inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans. In addition, a growing emphasis is placed on compliance with Pennsylvania Clean Streams Law in that farms must have an Agricultural Erosion and Sedimentation Control Plan and Manure Management Plan. These practices maintain and improve soil health.

#### **SUMMARY OF CONSERVATION PRACTICES – 2021 PRESERVED FARMS**

<b><u>CONSERVATION PRACTICES</u></b>	<b><u>NUMBER OF FARMS</u></b>
Conservation tillage	151
Contour farming	152
Crop rotations	151
Crop residue use	64
Cover crops	50
Diversions	16
Streambank protection	23
Strip-cropping	25
Subsurface drainage	10
Terraces	5
Water control structures	8
Waterways	44
Animal waste storage	20
Nutrient management system	60
Pasture and hay land management	51

#### ***Recommendations for the Purchase of Agricultural Conservation Easements***

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (166). None were disapproved.

## **Conclusion**

The Farmland Preservation Program has permanently preserved 14,397 acres of agricultural land on 166 farms over the past year. The total cost of this protection in state and county funds was \$46,938,890. The average price per acre was roughly \$3,100. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 4 million acres of land. Of the 58 participating counties, 55, or 95 percent, appropriated local money for farmland preservation during the 2021 calendar year, amounting to more than \$16.5 million.

Pennsylvania's farmland preservation program thrives on partnerships between all levels of government and non-profit organizations and is a national model for success in land conservation. An estimated 1,200 eligible farms remain on county backlog lists for 2021. The mission of the program moving forward will be to continue preserving prime farmland and to safeguard a vast investment made in Pennsylvania agriculture. In addition, supporting programs like Clean and Green and the Agricultural Security Area continue to keep property taxes affordable and protect the rights of participating farm owners.

Pennsylvania's preserved farms will feed the nation and the world in years to come.

### **State Agricultural Land Preservation Board**

as of December 31, 2021

The Honorable Russell C. Redding, Chairman and Secretary, Department of Agriculture

The Honorable Dan Moul, House of Representatives

The Honorable Elder Vogel, Jr., Senate of Pennsylvania

## **TABLE 7: LAND TRUST REIMBURSEMENT GRANT PROGRAM**

**Background:** Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

**Objective :** To accelerate the Farmland Preservation activity by developing partnerships with Land Trusts.

**Status :** 12/16/2021 State Board Meeting

### **Land Trusts registered with the State Board (24):**

Adopt An Acre, Inc.  
Allegheny Land Trust  
Berks County Conservancy  
Brandywine Conservancy  
Central Pennsylvania Conservancy  
Centre County Farmland Trust  
Countryside Conservancy  
Delaware Highlands Conservancy  
Farm and Natural Lands Trust of York County  
French and Pickering Creeks Conservation Trust, Inc.  
Heritage Conservancy  
Lancaster Farmland Trust  
Land Conservancy for Southern Chester County  
Land Conservancy of Adams County  
Lebanon Valley Conservancy, Inc.  
Manada Conservancy  
Merrill W. Linn Conservancy  
Montgomery County Lands Trust  
Natural Lands Trust, Inc.  
North Branch Land Trust  
Pennsbury Land Trusts, Inc.  
Pittsburgh History & Landmarks Foundation  
Western Pennsylvania Conservancy  
Wildlands Conservancy

### **Application Reimbursements:**

Adopt An Acre, Inc.	43 acres	\$9,879.50
Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	4,381 acres	\$281,632.50
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	834 acres	\$29,100.74
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	5,356 acres	\$286,564.99
French & Pickering Creeks Conservancy Trust	24 acres	\$5,000.00
Lancaster Farmland Trust	20,281 acres	\$1,601,533.99
Land Conservancy of Adams County	7,193 acres	\$300,112.60
Lebanon Valley Conservancy, Inc.	416 acres	\$7,689.57
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00
<b>TOTALS (559 easements)</b>	<b>40,174 ACRES</b>	<b>\$2,597,511.74</b>
